## PROFESSIONAL SUMMARY

Motivated and detail-oriented Junior Web Developer with experience in fixing front-end bugs, enhancing CMS platforms, and collaborating cross-functionally. Eager to contribute to innovative projects while continuously expanding technical skills in a collaborative team environment.

## TECHNICAL SKILLS

**Programming Languages:** HTML5, CSS3, JavaScript, PHP

**Frameworks & Libraries:** Laravel, Vue.js, Nuxt, CodeIgniter, Bootstrap, Tailwind CSS

**Tools & Technologies:** Git, GitHub, Putty, WinSCP, Postman, Figma, MS Clarity, Sentry.io

**Databases:** MySQL, DynamoDB

## WORK EXPERIENCE

### Junior Web Developer

Netmediias Leashares

Petaling Jaya

November 2024 - Present

- Spearheaded major enhancements to Atlas, the in-house content management system (CMS), by implementing new, business-critical features that streamlined landing page creation for the Business Development (BD) team.
- Actively managed code deployment to Staging and Production servers using PuTTY, ensuring reliable rollouts through rigorous staging environment testing.
- Collaborated with AWS Lambda backend engineers to ensure robust API integrations and accurate parameter passing across dynamic landing pages.
- Worked with both MySQL and DynamoDB, bridging traditional relational and serverless database models for optimal data access and flexibility.
- Authored comprehensive user documentation for all new CMS features, improving internal onboarding and feature adoption.

### Information Technology Intern

Netmediias Leashares

Petaling Jaya

May 2024 – November 2024

- Fixed bugs and optimized components across various client-facing landing pages.
- Implemented minor enhancements in the in-house CMS build on Laravel and Vue.js.
- Coordinated with Business Development to gather requirements and deploy landing page updates.
- Created banners and reusable design templates for landing pages.
- Maintained code hygiene and deployed changes via Git.

### Information Technology Infrastructure Intern

OSK Group

Ampang Park, KL

June 2023 – August 2023

- Set up and configured laptops for new employees, including user accounts, printer connections, VPN access, and Microsoft Outlook setup.

- Delivered timely remote technical assistance via TeamViewer to resolve software and network connectivity issues.
- Identified and repaired common laptop hardware issues, including performing memory and storage upgrades.
- Managed and updated IT asset records, maintaining accurate hardware and software inventory.
- Supported the implementation of IT Service Level Agreements (SLAs) to track performance and ensure efficient incident resolution.

## EDUCATION

---

### BSc (Hons) in Computing

Segi College Kuala Lumpur, Malaysia

June 2020 – December 2024 | CGPA: 3.75

### Foundation in Information Technology

Segi College Kuala Lumpur, Malaysia

May 2019 – May 2020 | CGPA: 3.9

## PROJECTS

---

### Mixsmans | [mixsmans.com](#)

#### Interactive portal for reels, games and dramas

- Developed an interactive web portal using Nuxt 4 and Tailwind CSS, focused on providing an engaging user experience for media content such as reels, games, and dramas.
- Collaborated with an AWS Lambda backend engineer to implement APIs for dynamically displaying content, ensuring seamless integration between front-end and back-end systems.
- Currently an ongoing project, serving as a mockup for telco service approval, with plans for further revisions and improvements based on feedback.
- Worked closely with a cross-functional team to enhance the user interface, emphasizing responsiveness, performance, and overall usability.

## LANGUAGES

---

English (Fluent), Bahasa Malaysia (Native)
